- Meeting began 9:06 pm EST

Members Absent – Jaclyn Bush

President –

- Emergency Fund: Sadly, we need to suspend the Emergency Fund as it has eaten into our main operating budget and is affecting the Havamal program. In the last 4 months, we paid out $4,300 and only took in 2,500 in Emergency Program fundraising. We have a plan to increase or income through expanding merchandise sales. Hopefully, this will bring in more funds and we can restart the program soon.

- TAC Online Store: We will offer limited quantity special edition shirts through T-Spring. We have many artists volunteers who can develop designs. We have a calendar with both solar and lunar holidays and beautiful artwork by member, Saga Erickson. If it sells well, we will reprint one for next year and work on designs for the following year. We will offer a discounted bundle on our Havamal and soon to be release Voluspa, for $18. We will sell TAC hammers, alter kits, etc.

- Voluspa update – should be finished by end of month. I asked for a ample of what he has finished so far.

- Deputy Directors – Board members who oversee important programs – Ambassador Program, Clergy Program, Military Program, Public Relations – must find a deputy director that they can work well with in case of emergency or board member resignation. This way, the programs will have minimal disruption while a vote for the replacement occurs. The deputy would act as interim director and have the first nomination in the voting process.

- Hof update: It has electricity!! Purchase Heathen Tapestries for walls. Working with contractor to plan work on floors and walls.
